ABSTRACT

ScroogeCoin cryptocurrency is a fork of the EvergrowCoin. Scrooge holders are rewarded with Binance-Pegged USD (\$BUSD), a popular cryptocurrency that is pegged one-to-one with the United States Dollar (USD). This single feature is so important and unique, it makes ScroogeCoin an immediate front runner among all other cryptocurrencies.

With every buy or sell Scrooge transaction, a small percentage of tokens are automatically transferred to the PancakeSwap liquidity Pool. ScroogeCoin also maintains a buy-back reserve from where the tokens are converted into BNB and securely locked and stored in the ScroogeCoin contract. The MoonShot buyback and AutoBoost buyback systems work to maintain the smooth flow.

The purpose of ScroogeCoin is to create a new distribution of wealth back to the people holding the digital property instead of profits flowing into corporate entities. We believe that the reflection token is a trillion-dollar market, and we intend to be the #1 token and community in this market.

SCROOGE COIN TOKENOMICS

Exclusively offered on the Binance Smart Chain (BSC), ScroogeCoin is the next generation of the reflection token: the Binance-Pegged BUSD reflection token with purposeful mechanics and strategies in place to secure ongoing value in the community coin. Simply by holding \$SCROOGE tokens, users will receive a portion of the massive 8% of each ScroogeCoin transaction that is automatically converted to BUSD Rewards. Each holder's BUSD rewards are determined by the percent of the overall ScroogeCoin supply they own.

Out of the total 1,000,000,000,000 ScroogeCoin tokens minted, 50% have been sent to the burn address, 10% to the founders and the team, and finally, 100,000,000,000,000 tokens have been distributed to the Scrooge marketing wallet. These tokens will be used strictly for Scrooge marketing efforts and/or token burns to decrease the overall supply and drive up the price of the remaining Scrooge tokens.

- 8% of every ScroogeCoin buy/sell transaction is redistributed to all holders in the form of Binance-Pegged BUSD.
- 2% of every transaction is transferred into the PancakeSwap liquidity pool to create a stable price floor.
- 4% of every transaction is transferred into the smart contract for the marketing wallet. No tokens within the marketing wallet will ever be sold. They will only be used for Scrooge marketing activities and/or burning of the tokens.

SCROOGE CORE VALUES

TRUST

Trust is critical in the crypto industry. This entails complete openness in all aspects of community and development work, as well as strict security efforts. The inclusion of Binance-Pegged BUSD brings more trust to ScroogeCoin holders. There will NEVER BE A RUG PULL WITH SCROOGE COIN.

COMMUNITY

ScroogeCoin is one of the fastest-growing and most-beloved communities in cryptocurrency. We believe that community is essential, and ScroogeCoin tries to involve people from all around the world. We will soon offer specialized telegram channels for our foreign community.

TRANSPARENCY

On the Binance Smart Chain (BSC), ScroogeCoin is the next generation of the reflection token: The first Binance-Pegged BUSD reflection token to optimize our holders' profits both now and in the future. Simply by holding \$SCROOGE tokens, users will receive an 8 percent return in Binance-Pegged BUSD for each transaction, which will automatically be transferred to your wallet. The amount of BUSD will be determined by how much of the coin you HOLD and the volume of ScroogeCoin transactions.

LONGEVITY

ScroogeCoin is here to stay. The decentralized community encourages and embraces long-term ecosystem and foundation development to generate genuine use cases and higher benefits than any ephemeral fad. Our online casino is just the beginning of SCROOGE.

SCROOGE CASINO GAMING MECHANICS

Our goal is to have the beta version of the casino live before the end of Q2 2022. We have secured a HIGHLY experienced team to develop the project. The casino will be tied to the marketing wallet which is continually funded by the tokenomics of ScroogeCoin. These funds will be used to both market the casino and continue developing new features and digital properties within the Scrooge ecosystem.

All ScroogeCoin holders will be able to enter the casino. We will utilize a secure wallet connect system that allows you to safely connect your wallet to the Scrooge Casino, where you will receive a specific number of tickets monthly depending on your holdings. We genuinely believe the casino will be funded with MILLIONS of dollars within months of launch, which will provide the financial flexibility to bring tremendous visibility and loads of new players. Initially, the casino will offer Texas HoldEm Poker and Slots, with many more games to come. As a ScroogeCoin holder, you get to play for FREE and win legit crypto and other amazing prizes.

See you inside the only casino where the house NEVER wins!.

Conclusion

ScroogeCoin is not the only BUSD reflection coin on the market. There are others like EverGrow Coin and SafeMoon. However, ScroogeCoin is the ONLY new coin in which you can be certain there will never be a rug pull. This coin was birthed from a desire for passive income. Never in human history has there been something that can create wealth for us like these tokenomics.

The Scrooge end goal is to be dominant in both the crypto and gaming platforms, which we believe is the future economy of the world. Most likely, the metaverse will be closer to reality than actual reality. We must secure our space in the coming ecosystem.

Please remember SCROOGE is not a business so there are no profits from said business like a corporation. The value of SCROOGE will solely be determined by the community which holds it.
